

DECEMBER 2024

A report from the ADL
Center for Antisemitism Research

In October 2024, CAR conducted a nationally representative survey of 817 American adults and K-12 parents

The findings show that:

71%

OF JEWISH PARENTS

37%

OF NON-JEWISH PARENTS

reported that their child
encountered antisemitism in
the classroom

Take Action

Center to Combat
Antisemitism in Education](#)

Schools and school districts should:

- Formally include antisemitism awareness education in all anti-bias and non-discrimination programming.
- Adopt Holocaust and genocide curricula offerings.
- Provide mandatory antisemitism awareness and Holocaust education professional development trainings for all educators.
- Ensure that lesson plans are free from antisemitic bias toward Jews or the State of Israel, and that they do not unintentionally amplify or perpetuate antisemitic beliefs or attitudes in school community.
- Ensure that robust incident reporting mechanisms are in place and are known to members of the school community.

DECEMBER 2024

A report from the ADL
Center for Antisemitism Research

Demand and Need for Education on Holocaust and Antisemitism

Parents whose children did not have access to antisemitism education were 46% less likely to report awareness of antisemitic bias on campus.

89%

OF AMERICANS SUPPORT

K-12 Holocaust
education

84%

OF AMERICANS SUPPORT

K-12 antisemitism
education

**YET, ONLY 21% AND 30% OF PARENTS
REPORTED THAT THEIR CHILD RECEIVED ANTISEMITISM
AND HOLOCAUST EDUCATION, RESPECTIVELY**
